9/11 Families for a Secure America whose members include relatives of 300 of the victims of the September 11, 2001 terrorist attacks will hold a press conference on Tuesday November 30, 2004 at 11:00 A.M. in Room XXX of the XXXXX House Office Building.

The members of 9/11 FSA will reaffirm their support for the border security measures that the 9/11 Commission recommended in their final Report. They will also call on Senators Lieberman and Collins to negotiate in good faith in their roles as lead conferees on the 9/11 Commission Recommendations Implementation Act.

The families of the 9/11 victims recognize the major role played by failure of government to prevent illegal entry to the US, and demand that the final Implementation Act address the issue of open borders which the Collins-Lieberman bill completely fails to do.
