Senator Bill Frist
Senate Majority Leader
Washington, D.C.

Dear Senator Frist:

In the fall of 2004, the authors of this letter urged inclusion of all the border security, immigration and secure identification provisions of HR10 in the final 9/11 Commission Recommendations Implementation Act. Tragically, the final compromise left out nearly all these provisions.

Although authorization of substantial increases in Border Patrol Agents were included in the final bill, the President's budget does not request the necessary funds for these increases. Evidently, the promises of last December have been forgotten already and the American people are about to be betrayed again.

We will not mince words. Inevitably, a terrorist in possession of a US-issued driver's license will be apprehended; perhaps after another 9/11, perhaps before. When that time arrives those murdered on September 11, 2001 will, through us, their grieving families, hold accountable to the American people each and every Member of the Congress who has been guilty of permitting illegal aliens and the unknown terrorists among them to benefit from the veneer of legitimacy that a driver's license creates for the license holder. Similarly, will we hold accountable those who oppose the other provisions of HR10 not enacted last year and now included in HR 418.

Support for those provisions is widespread, endorsed by among others, the Fraternal Order of Police, the Christian Science Monitor, and a bi-partisan House majority of 261 to 161 opposed. On the 9/11 FSA Board of Directors are supporters of George Bush and supporters of John Kerry in the recent election, including those whose endorsement was accepted and publicly touted by these candidates. Nothing could more clearly demonstrate that border security is, or should be, an issue important to all regardless of party or ideology.

The members of 9/11 FSA speaking for the dead and the survivors of 9/11 demand passage all the border security, secure I.D. and immigration measures now in HR 418.

We would like to add this thought from one of the signers, typical of those included with the responses: "I can't believe this. I'm still so heartbroken."

Please do not ignore us.

The following signers of this letter are relatives of the 9/11 victims or are themselves survivors:
